## WHAT CAN WE DO FOR YOU

---

Medical travel and medical tourism are becoming a popular choice for healthcare consumers and these consumers go to the same place for information on healthcare services as they do for everything else; the web. If you want to attract international patients to your hospital, clinic or medical tourism agency, promoting your services through the LaingBuisson family of international medical travel portals is the option that delivers the best return on your online marketing investment.

Our sites are aimed at “active treatment, service or product seekers” in the medical travel sector – people who are actively seeking a solution to their healthcare need. The sites give people the opportunity to research a variety of services in different countries, and to contact healthcare providers direct, or through our Enquiry Forwarding Service.

Our clients range from major hospitals worldwide, to small clinics and individual clinicians that are seeking to attract international patients. Our clients benefit from a variety of options to promote their services:

- **Featured Profiles** provide the opportunity for your hospital, clinic or healthcare service to stand out in a given treatment or service area.
- A **Sponsored Guide** is an excellent way of getting your message across and establishing your authority in a particular area.
- The **Enquiry Management Service** delivers leads from potential patients who are exploring the options for treatment in another country.
- **Banner Advertising** enables you to target specific treatments, promote your brand, highlight offers and generate traffic to your web site.
- **Video Profiles** mean that patients can get a real feel for the services that you offer and “get to know you” online.
- Our **Patient Stories** mean that you can share the experiences of your past patients and build trust in services with potential patients.
- **Articles and Features** enable you to share interesting articles with our site visitors. It’s a great way of building the reputation of your business, clinic, practice or service.

We can tailor a package of promotion that will match the services that you wish to promote and your budget, large or small.

## A NETWORK OF LEADING MEDICAL TRAVEL SITES

LaingBuisson operates a network of medical travel sites covering various sectors of the medical tourism marketplace. You can focus your investment on one specific site that best meets your audience needs or use our network to target healthcare consumers in related market segments.

### Treatment Abroad

Treatment Abroad ([www.treatmentabroad.com](http://www.treatmentabroad.com)) was the first medical tourism portal for people seeking information on cosmetic surgery, dentistry, infertility treatment and hospital treatment abroad. Patients can search, compare and enquire to hospitals, clinics and medical tourism agencies worldwide as well as calculating the total cost of travelling, including treatment, travel, accommodation and insurance. The site incorporates a “Guide to Medical Tourism”, price comparisons, patient stories, videos, and destination guides.

### Fertility Treatment Abroad

Fertility Treatment Abroad is aimed at patients seeking fertility treatment in another country. The site

provides information on clinic services, success rates, quality standards and staff, and enables infertile couples to search, research and compare the clinics and treatment options online.

### DoctorInternet

DoctorInternet is the leading online resource for Arabic patients who are seeking information about travelling overseas for treatment. Visitors to the site benefit from independent and impartial advice and can explore the options available for surgery, dentistry, infertility treatment and cosmetic treatment in countries that offer services for Arabic patients.

DoctorInternet is in the Arabic language at

[www.doctorinternet.ae](http://www.doctorinternet.ae).

## IMTJ - International Medical Travel Journal

IMTJ ([www.imtj.com](http://www.imtj.com)) is an online business to business industry journal that provides insight into the medical travel and medical tourism sector. IMTJ publishes an e-newsletter twice a month and regular articles from opinion leaders and experts in the sector that reaches over 18,000 major players in the industry. The site also provides a calendar of medical travel events, a business directory, a medical travel marketplace and access to research and statistics on medical travel.

## Medical Tourism Ratings and Reviews

We were the first to provide a system whereby patients can publish their ratings and comments about their experience of travelling for treatment:

<http://reviews.treatmentabroad.com/>. Patients want to know about other patients' experiences, and Medical Tourism Ratings and Reviews provides them with the "word of mouth" that helps them to make the right choice of healthcare provider in another country.

## UK sites

LaingBuisson also operates a network of UK focused healthcare sites that contain dedicated sections on the options for medical tourism. These include Private Healthcare UK ([www.privatehealthcare.co.uk](http://www.privatehealthcare.co.uk))

## OPINION LEADERS AND INNOVATORS IN MEDICAL TRAVEL

---

The medical tourism community pays attention to what we do and what we say. We have recorded a number of firsts and are the first stop for the media when they are seeking a comment or information on the medical travel business.

### Google approved news feeds

Google News aggregates headlines from more than 4,500 English-language news sources worldwide. Becoming an “approved” Google news feed is a lengthy process and is subject to Google’s content, quality and technical guidelines. Both Treatment Abroad and IMTJ are Google approved news feeds for the medical travel sector. When a client provides us with a press release or news item, our editorial team adds it to our news feed. Within minutes, this news item will have been indexed by Google and will appear in news results worldwide.

### Medical Tourism Ratings and Reviews

We introduced the concept of patient ratings and reviews in medical tourism. Consumers worldwide want to hear from “people like me” before they buy a product or service. Patients are researching hospitals and clinics online before they decide where to go. Choosing a doctor, operation, or hospital, is a big decision; the more opinions a patient can gather, the more secure they feel with their ultimate choice.

### Research into medical tourism

There is a significant lack of meaningful data about the size and nature of the medical tourism market, and the prevailing prices. We have made a positive effort to fill this gap in knowledge.

- In 2006, we set up the Treatment Abroad PriceWatch, the first ever comprehensive analysis of worldwide medical tourism prices. We will be publishing the most recent results later in 2014.
- In 2007, we invested in the first ever provider survey of medical tourism, gaining responses from over 130 service and healthcare providers to an extensive online survey. Our 2013 survey resulted in responses from over 400 medical tourism providers.
- In 2008, we invested in the first ever survey of medical tourists, gaining responses from 648 people who had travelled for treatment.
- In 2011, we invested in additional research into patient experiences of medical tourism, gaining responses from 1,048 people who had travelled for treatment.

## The first code of practice for medical tourism

Increasing attention is being paid to issues such as quality of treatment, accreditation of surgeons and dentists, hospitals and clinics in medical tourism. Aware of these concerns, we were keen to reinforce the standards which the medical tourism industry is gradually adopting and therefore introduced a “Code of Practice for Medical Tourism”. See: [www.treatmentabroad.com/medical-tourism/code-of-practice](http://www.treatmentabroad.com/medical-tourism/code-of-practice)

### TREATMENT ABROAD CODE OF PRACTICE

## The IMTJ Medical Travel Summit and Awards

In 2014, IMTJ established the first credible Awards programme in the medical travel sector. The [IMTJ Medical Travel Awards](#) 2014 were held alongside IMTEC 2014 in Dubai.

In 2015, we brought the IMTJ Medical Travel Awards to London and decided to co-locate it at the Royal Garden Hotel with our first conference in the medical travel sector - the [IMTJ Medical Travel Summit](#). (We already run an established and successful event - the [Private Healthcare Summit](#) - in the UK healthcare sector.)

Over the following years, the Summit has been located in Spain, Croatia and Athens.

The IMTJ Summit is a high-level event aimed at senior decision makers involved in the medical tourism and international patient market. There are many conferences and congresses that have grown up around the industry; most have failed to deliver the content that delegates want and to address the major issues that face the industry. The IMTJ Medical Travel Summit brings together the best people in the sector to share their knowledge and experience and ensure the long term development of the industry.

### **The IMTJ Medical Travel Summit and Awards has been a resounding success:**

*“That was the best medical travel conference I’ve attended, finally someone is paving the way to raise the bar in this industry! The organisation, timing, food, speakers – it was all superb!”*

Senior Executive, UK

*“This was my first IMTJ event and it was delightful. So much different than the MTA. Valid.”*

Healthcare Author, USA

*“I congratulate you on your excellent choice of topics and speakers as well as your perfect running of the event. I came back with enriched knowledge on the different aspects of medical tourism today.”*

Vice President, Medical Tourism Council

*“We feel very privileged to have been a part of the IMTJ Medical Travel Summit. We learned an enormous amount from all speakers. Many thanks for your leadership and an excellent professional event.”*

CEO, China

These are just a few of the comments. [View more feedback online.](#)

## PROMOTIONAL OPPORTUNITIES

---

Our network of healthcare-related sites enables you to adopt a varied approach to promotion, depending on your marketing objectives.

Companies can promote their services and attract business through our network in a variety of ways.

- The Silver Profile: Enhanced directory listing
- The Gold Package: Enhanced directory listing, Featured Pages, Patient Stories, Patient Reviews, Articles, Direct Enquiry
- Enquiry Forwarding Service for major treatment areas
- Video profiles
- Sponsorship of patient and consumer guides
- Banner advertising

Discounts are available for multiple listings. There is a significant quantity discount for companies which wish to include a number of facilities or services.

### The Silver Profile

The Silver Package means that you stand out in directory listings and search results, and can incorporate additional information about your facility or practice.

### The Gold Package

The Gold Package is for those customers who are serious about online marketing - an enhanced presence on the site, search optimized page content for your hospital, clinic or practice profile, patient stories and articles, a patient reviews system, and direct enquiries.

## Summary of our packages on treatment abroad

You can purchase a profile on Treatment Abroad for as little as £129. The table below details what is included for each option:

### About Singelberg Clinic

Top quality cosmetic, reconstructive and maxillofacial surgery in Belgium, the [Singelberg Clinic](#) can offer treatment in either their private clinic or two Belgian general hospitals.

Singelberg Clinic are amongst the few private clinics in Belgium with very strong and safe links to the reputed Belgian general hospitals. All their consultants (Dr. Oelbrandt, Dr Colpaert and Dr Guelinckx) work in general hospitals, and will give you the choice of being operated in the private Singelbergclinic, or in the general hospital (Sint Jozef) in Bornem, Belgium, located 30 minutes from Antwerp or Brussels, the heart of Europe.

**Cosmetic surgery consultations in London**

By bringing the consultations to London and the procedures to Belgium, Singelbergclinic can offer people a more affordable solution, whilst at the same time maintaining top quality. All consultations and aftercare/check-ups are done by the surgeons themselves.

**Next-Day-Consultation-Surgery abroad in Belgium**

The Singleberg Clinic can offer your consultation and treatment on consecutive days. Since your treatment is abroad, it is recommended to send some pictures beforehand to your surgeon, in order to discuss the possibilities.

### Treatments

Breast enlargement ▼

There are many ways to perform breast enlargements. The method must be tailored to the individual patient needs. The principal is to create a pocket under the breast tissue and place a breast implant into that pocket. The breast enlargement operation is done under either local anesthetic (you are awake) or general anesthetic (you are asleep).

## Guide sponsorship

Consumers, patients and medical tourists want to be more informed about their healthcare, the options for treatment abroad and the services and products that can help them to achieve their healthcare goals. Online and offline resources that inform the patient's choice are an excellent way of getting your message across and establishing your hospital, clinic or business as an authority in a particular area of treatment.

If you want to attract medical tourists, promoting your services through a Sponsored Guide within the LaingBuisson family of medical tourism and healthcare portals or as a standalone guide delivers an excellent return on your marketing investment.

You can choose to sponsor an existing guide or commission a guide in an area which is of specific interest to you. We will handle editorial, design and production.

There are a number of options for promotion of the guide:

- The guide can be featured throughout our network of web sites.
- The guide can be featured on your own site.
- The guide can be featured on other sites, or promoted through a Google Adwords campaign (which we will develop for you).
- The guide can be promoted through an online PR release and via targeted PR contact with UK health correspondents and journalists.
- The guide can be promoted by email to relevant UK support groups and patient associations and announced in relevant patient forums.
- The guide can be distributed by your staff in response to patient enquiries or produced in print for distribution in your waiting areas.

We maximise the effectiveness of your sponsorship by developing a custom-built response process which is triggered whenever the guide is requested from our site, your site or anywhere else that you choose to offer the guide.

Once the visitor has downloaded the guide, we capture their email address, and start a process of engaging the patient, providing useful advice and information on how they can fulfil their medical tourism needs through your healthcare facility or service. They receive regular email follow up, delivered and managed by ourselves.

To view some of our guides available for sponsorship, click on the examples below:

- [A guide to cosmetic surgery abroad](#)
- [A guide to dentistry abroad](#)

## Sponsorship Costs

Investing in a Sponsored Guide makes great sense and it's great value for money. Typically, our clients invest from £8,000 to £15,000 in sponsorship of a guide for one year. This includes the cost of editorial and production in the first year of sponsorship.

## Banner advertising

Banner advertising can be placed on all pages of our sites as well as within specified sections, e.g. cosmetic surgery abroad, infertility treatment abroad.

We can serve banners in the following placements:

- Home page featured carousel (490 x 150 pixels). In rotation, with a maximum of 4 banners in total.

- Top banner (468 x 60 pixels)
- Right skyscraper 1 (120 x 600 pixels)
- Right skyscraper 2 (120 x 600 pixels)

## Banner Costs

### ***Home page carousel***

The home page featured carousel offers up to 4 advertising placements. These can be purchased for one month, three months or a year.

One month:     £600

Three months:  £1,500

One year:       £5,400

There are two ways to buy banner advertising on the site, by “impression” or by “click”.

### ***Cost per Impression (CPM)***

With this method you book a set amount of activity within in specific section and with a confirmed position on the page, i.e. side banner 2. This method allows you to secure a specific position and a guaranteed level of activity. Cost per impression banners are charged at rates starting from £10 CPM (Cost per 1,000 impressions), depending on where they appear on our sites.

### ***Cost per Click (CPC)***

Cost per Click is a results based model. You simply book a set amount of clicks; the cost per click is affected by the number of clicks you buy, how you then deliver the clicks is up to you. For example, you could book 500 clicks and spread these across multiple sections of the site and over whatever timeframe you wish. Cost per click banners are charged at rates starting from £2 per click.

**Note:** Banner advertising is available to Gold profile customers only.

## Clinic of the month

An opportunity for leading providers to be seen as THE experts in their field, offering a high profile and very prominent position on Treatment Abroad.

- Max of 3 providers per treatment area, in rotation.
- Banners are displayed above "Get a quote for XYZ treatment", on the treatment page, the costs page, and on any article pages relating to the treatment.

Advertisement

### Cosmetic & Plastic Surgery Abroad

Plastic surgery is something which many people are choosing in combination with a relaxing holiday. Not only does this mean you can enjoy a stress-free experience, but you'll also find that considerable savings can be made when you choose plastic surgery abroad.

There are a huge number of different cosmetic procedures that you can choose from, covering just about any surgery you can think of. Some of the most popular include:

- [Breast augmentation](#)
- [Eyelid lifts](#)
- [Facelifts](#)
- [Rhinoplasty](#)

Belgian cosmetic surgery clinic Clinic BeauCare offers advice about [breast augmentation procedure](#).

#### In this section...

[Cosmetic surgery abroad guides](#)

We have many healthcare guides so that you can get the best information about cosmetic surgery abroad. ...

[Destinations](#)

#### Clinic of the month

Be Clinic offers cosmetic and plastic surgery in Brussels, using the most advanced techniques. Cosmetic procedures available include breast augmentation, facelifts, nose correction and liposuction.

[View full profile >](#)

#### Get a quote for cosmetic surgery abroad

1. Complete the enquiry form
2. Select countries of interest
3. Providers respond directly

[GET A QUOTE ▶](#)

## Costs

Each treatment area offers up to 3 advertising placements. These can be purchased for three months, six months or a year.

Three months: £950

Six months: £1,600

One year: £2,880

**Note:** Clinic of the month is available to Gold profile customers only.

## Enquiry forwarding

Our sites enable visitors to complete an enquiry form for a particular service and submit this to a number of providers in one easy step.

For example, a visitor looking for cosmetic surgery abroad completes the cosmetic surgery enquiry form, selects the countries in which they are interested, and this enquiry is automatically forwarded to participating cosmetic surgery providers. A maximum of three providers can sign up to receive enquiry forwarding for a specific enquiry form for a specific country.

- [Click here](#) to see an example of the Enquiry Form for dentistry abroad.

### Costs

The Enquiry Forwarding Service is charged at a rate of £3 - £8 per enquiry depending on the treatment selected, and is payable at a fixed rate, quarterly in advance.

**Note:** *Enquiry forwarding service is available to Gold profile customers only.*

## Video content

Video content is becoming increasingly common on the web, driven by the growth of sites such as YouTube and Google Video, and the adoption of broadband by the vast majority of internet users. News sites such as the BBC, CNN and online print media such as the Telegraph have rapidly adopted video on the web.

We invite clients to profile and promote their services through video content.

Our offering includes both the production of professionally made video content for your business or service and the promotion of this content on our healthcare sites and on the web in general.

### Video Costs

We can arrange to have the videos produced as well as hosting them. We do not charge a hosting fee. Production cost can again vary depending on the type of video being produced and the amount of time required. As a guide these will cost between £1,500 and £2,500; this is a one off fee.

Please contact us for more information about video production.

## HOW WE ADD VALUE

---

At LaingBuisson, we don't just sell advertising. We want our clients to succeed in the healthcare business. So, we provide a range of value added services to help you attract more patients.

- We invite our clients to contribute relevant **Articles & Features** on surgical, medical and dental topics that would be of interest to patients. Each Gold client may contribute up to twelve articles per annum. The articles will give you additional exposure on the site.
- **Publication of News.** Treatment Abroad has "Google Approved News Status", the only company in the medical tourism market to do so. This means that any news item that is published on our sites will be featured on Google News within 1 hour. Each Gold client may contribute up to twelve news items per annum.
- Our "**Managing Web Enquiries**" guide shows you how to respond and convert more enquirers into private patients.
- Our **Patient Stories** mean that you can share the experiences of your past patients and build trust in services with potential patients. Each Gold client may contribute up to twelve patient stories per annum.
- Through our **Healthcare Ratings and Reviews**, patients can get "word of mouth" recommendations on the services that you provide.
- Our **video production service** delivers high quality video content for use on Treatment Abroad or on your own web site.
- If you don't have in-house design expertise, our **banner advertising production service** delivers effective banner advertising for your Treatment Abroad campaign or elsewhere.
- **A code of practice for medical tourism.** As medical tourism grows to become a worldwide phenomenon, increasing attention is being paid to issues such as quality of treatment. At Treatment Abroad, we are aware of these concerns and are keen to reinforce the standards which the medical tourism industry is gradually adopting. We have therefore produced a "Code of Practice for Medical Tourism".

## WHAT OUR CUSTOMERS SAY

---

We know our site is successful and so do our clients! Our clients come back and renew their listings and enquiry services every year. Here's what some of our clients have said about us:

### Euromedical Tours – Zahid Hamid

Having associated ourselves with Treatment Abroad virtually concurrent with our inception, there has been no looking back for Euromedical Tours. By providing a comprehensive overview of treatment choices and related information to the wary, information-seeking 'medical pilgrim', TA takes the onus off us and allows us to get down to the nitty-gritty of assisting people with real options and real decisions. Being on Treatment Abroad means competing with the best and there can be nothing better for the healthcare industry in general and the end user in particular.

### The Medical Tourist Company - Dr Premhar Shah

"The Medical Tourist Company has been the client of Treatment Abroad for the second year running. Treatment Abroad is the most respected website for would be medical tourists since it gives very impartial and easy to understand information to the patients. They carry out regular surveys about the medical tourism markets and keep their clients informed. Whenever we meet any of the directors in conferences they are ready to help and guide us in promoting medical tourism business."

### Mills and Mills Medical Group - David Mills

As you know, we were one of the first companies to advertise on your site and it has been pleasing to see how your site has grown together with our own company. Your sites are a vital source of leads for us, always perfectly targeted and plentiful in number. In fact, treatment abroad provides us with more leads than any other source. We are also happy to continue to assist you wherever we can in your efforts to establish credibility and professionalism in the industry, and your initiatives in this regard are to be both welcomed and commended. Registration in your approval scheme is high on our priority list. Once again many thanks, keep up the good work and all the best for the future.

### Picture Perfect Medical Coordinators – Joanna Matsentides

We have been advertising with Treatment Abroad since we started operations. We have so far spent thousands of pounds on advertising, and the most effective was listing with Treatment Abroad. We are constantly updated on happenings around the world concerning Medical Tourism and are also benefiting from Treatment Abroad's regular surveys concerning the Medical Tourism market. Treatment Abroad know Medical Tourism and they are definitely ahead of the game!!

### Kilinek Beaucaire/Cosmetic Surgery Belgium – Luc Varmbout

Comprehensive, easy to use, effective and efficient ...the best way to describe Treatment Abroad

### Surgery In France Ltd – Laurent Locke

Although dozens of "specialised" medical tourism websites promise business leads, Treatment Abroad is the only one that delivers a steady stream of relevant prospects. The combination of professional-looking, informative websites, consistently high search engine rankings and a responsive team make Treatment Abroad a vital partner in our continued business growth. Just a few lines to inform you how pleased we are with our marketing presence on treatment abroad and Private health websites.

### Cosmetic Surgery Cyprus/2BBeautiful - Jackie Sinnou

www.TreatmentAbroad.com is without doubt the number one medium for attracting interest to our services. The makeup of the site is both informative and ethical in its approach to medical tourism. There is simply no one better within this industry. I would recommend Treatment Abroad for any provider looking to attract prospective patients. Not only is the site effect but, also the level of service I receive efficient and polite.

#### Perfect Contours - Anette von Götzen

We at Perfect Contours are now in our 3rd year of using [www.treatmentabroad.com](http://www.treatmentabroad.com) to promote our cosmetic surgery services in Hungary. We have always been impressed by everyone at the company, they are at the forefront of the medical tourism market and it has been extremely beneficial to be involved. The leads we get from interested patients are always of a high quality and mean we get a good flow of patients. Treatment Abroad is constantly striving to offer the best possible marketing solutions. They launched a country specific site for Hungary ([www.treatmentinhungary.net](http://www.treatmentinhungary.net)) sometime ago which has further helped establish the region as one of the key destinations. We have also used the "Ratings and Review" service which allows past patients to review their treatment with us and share their experience with people considering us. It is just another example of why they are the best at what they do and why we will continue to use them for the foreseeable future.

#### Scan Health Norway - Turid Staveland Nygaard

[www.scan-health.co.uk](http://www.scan-health.co.uk) has been using the [www.treatmentabroad.com](http://www.treatmentabroad.com) website to promote our services in Norway since late 2006. Treatment Abroad is the company when it comes to Medical Tourism, their knowledge and understanding of the market is unsurpassed. We are proud of our association with them.

#### Serokolo Health Tourism - Dr Tshepo Maaka

[www.TreatmentAbroad.com](http://www.TreatmentAbroad.com) offers a complete and comprehensive solution to all your marketing needs. The site is effective, highly visible to search engines and the team both approachable for discussion and efficient. I would not hesitate to recommending the website for any medical tourism company that wants to expand internationally.

#### Fertility Argentina - Demián Glujovsky

[www.TreatmentAbroad.com](http://www.TreatmentAbroad.com) is a very good platform for medical tourism. Our website receives lots of visitors through treatment abroad.
